

YOU
ARE
INVITED

Printab**LED**

LED and printing technologies.

HIGH SPEED CURING WITH LEDS. NOW YOU CAN.

Register for the workshop

**“High power, high speed, high quality.
The LED era begins.”**

LABELEXPO - BRUSSELS EXPO
Meeting room n° 1124 - 3rd floor - Hall 11
September 26, 2013 at 14.30

Come and find out how we overcame the critical aspects of LEDs to perform high-speed printing.

Consumption 80% lower

Needs 75% less space

Lamps last up to 30,000 hours

Highly accurate processing with single constant radiation

Learn all about the new LED technology, the results of the tests on different machines and applications.
